

## ***The Wisdom of San Pasa***

**San Pasa** is the full-time Patron Saint of Systems and the part-time patron saint of people who don't have a patron saint and don't want one (which helps to explain his doleful expression). Here are his ***Ten Commandments of Sanity***:

- I. Do your best to maintain your integrity.**
- II. Always remember: *Asking* is relevant.**
- III. Honor thyself: eschew pearlcasting.**
- IV. Never try to take responsibility for another person's life (children excepted).**
- V. Keep your power (and remember its Source).**
- VI. Always remember: You can trust your Higher Self.**
- VII. When your Inner Voice speaks, *listen*.**
- VIII. Get plenty of rest and drink lots of liquids.**
- IX. Always remember: You are entitled to be happy.**
- X. Never forget: Thou art God.**
